

1.0 QUALITY POLICY

 **NOTE: ISO 9001:2015 Clause 5.2:** The quality policy must be communicated, understood, and applied throughout the organization. Refer to Section 15.0 for training and communication records.

Freeskills Engineering (M) Sdn Bhd is committed to delivering safe, reliable, and high-quality of new, repair, maintenance, and fabrication services for pressure vessels.

To achieve this, we pledge to:

1. **Safety First:** Prioritize the safety of our personnel, the public, and the environment in all repair and fabrication activities, strictly adhering to DOSH (Department of Occupational Safety and Health, Malaysia) and Factories and Machinery Act (FMA) 1967 requirements.
2. **Regulatory Compliance:** Ensure all repairs and fabrications comply with the relevant sections of the ASME Code and BS EN Standards.
3. **Customer Satisfaction:** Understand and meet customer requirements fully, aiming to exceed their expectations regarding project timelines, quality, and budget.
4. **Continuous Improvement:** Continuously improve the effectiveness of our Quality Management System through measurable objectives, regular audits, and management reviews.
5. **Competence:** Ensure all welders, supervisors, and NDT technicians are suitably qualified and certified for the specific tasks they undertake.

This policy is communicated to all employees and is reviewed annually for continuing suitability.
